

The Norwegian Gestalt Institute invites you
to a conference 29th and 30th October 2022

Being together in what is...

The wider field

Norsk Gestaltinstitutt AS
HØYSKOLE

PSYKOTERAPI — VEILEDNING — COACHING — ORGANISASJONSUTVIKLING

The last few years of the pandemic, global warming, and now war in Europe challenge how we are affected and create an even greater perspective on how dependent we are on each other. Gestalt therapy draws on phenomenology and existentialism without losing sight of our human resources and personal development.

The Norwegian Gestalt Institute is pleased to invite you to a conference where we will explore

Being together in what is...

The wider field

Be inspired by opportunities for networking, lectures, dialogue meetings, and stimulating workshops.

On Saturday evening, we invite you to an informal get-together. There will be a tapas buffet and dancing in Nightflight from 19.30 to 01.00.

We look forward to two days of meetings, both professional and social, international and national.

The event committee warmly welcomes

"Everyone interested in the gestalt method is welcome!"

Elisabeth Røst, Ida Wadel, Siri Merete Andersen, Yvonne Vogt, and Vibeke Visnes
